

FORWARD VECTOR GROUP
FIRE & LIFE SAFETY
— CONSULTING —

FIRE PROTECTION STRATEGIES THAT MOVE YOU **FORWARD.**

Forward Vector Group helps facility owners, contractors, and design teams navigate the operational side of fire and life safety. From code interpretation on the front end to the budgeting, storage planning, and inspection programs that keep a facility compliant over time. That perspective comes from years spent on the front lines of the fire protection industry, working directly with code officials, AHJs, and building owners.

 **SERVING HEALTHCARE AND HIGHER EDUCATION
ORGANIZATIONS NATIONWIDE**

**STORAGE &
FIRE RISK
PLANNING**

Hazard classification, commodity storage planning, and fire-risk assessment for facilities adapting to changing inventory, layouts, and storage conditions.

**CODE
CONSULTING**

Practical code interpretation for new construction, renovations, and existing facilities—helping owners and design teams navigate code officials and approval requirements.

**FACILITY
ASSESSMENTS**

Facility-wide reviews that identify fire and life-safety gaps, clarify priorities, and support practical corrective planning.

**ITM
ADVISORY**

Inspection, testing, and maintenance program design and review focused on building an organized, defensible, code-aligned approach.

**NEARLY 20 YEARS
FIRE PROTECTION
EXPERIENCE**

Deep industry knowledge.
